

Graduate

Little Veterinarian School

Name

completed Little Veterinarian School

Date

Little Medical School Oath – Veterinarian School

I am a Veterinarian want to be
And why not, it is so fun you see!
I know how to examine a dog
And tell if healthy or sick
And if I find a bug in his fur, I can tell if it's a tick!

I learned how the dog's immune system can recognize
The germs that makes my dog sick
But with antigens and antibodies in motion, it can give those germs a kick!
Carefully pinching skin on the neck
Is the way to give the shots to be had by all
Be confident and quick-that's always the best call

I can make my dog a nutritious meal
And clean his gums and teeth
He loves his hard food and water and the occasional healthy treat

I am as proud as can be
I have finished the Little Veterinarian School you see!
